

The image shows a blank PCB layout sheet with a coordinate grid. The horizontal axis is labeled 1 through 6, and the vertical axis is labeled A through D. In the top right corner, there is a yellow rectangular area containing various electronic component values, including resistors (e.g., 180k, 10k) and capacitors (e.g., 100nF). At the bottom right, there is a white rectangular box containing the following information:
